

Totem International Limited

TOTEM
Passion to Deliver

The world is rapidly changing into a global village. However, due to West-East divide, wealth generation and regional disparities, security is becoming a cause for concern. There is need for products & services in security sector, be it corporate security, cyber security or public security.

Totem is in preparedness to meet the challenges with world-class consulting, products & training. Totem has strength in global business & security and has wide network of manufacturers & service providers of security products & services.

As a Corporate philosophy, Totem believes in alliances and partnerships and nurtures them to reach the customers with the right solution.

Totem offers wide array of products and services for fire & security.

Products / Services on offer

1. Provide corporate security consultancy in risk assessment, Intellectual Property, physical security, financial, forensics, accounting, cyber security, identity theft, corporate fraud, and brand protection.
2. Facilitate global manufacturers / service providers to supply to police, army, and air force.
3. Distribute Indian high technology security products/ gadgets globally.
4. Collect / collate database of security professionals.
5. Consulting services: Police & Fire services in areas of identification product / source.
6. Training of staff for awareness sensitization on security issues.
7. Cyber Security Training
8. Integrated security solution for large infrastructure project including implementation with help of Totem Infrastructure Ltd.

Integrated Security Solution

FIRE UNIFORMS / EQUIPMENTS

Helmet with light-FR
Fireman proximity suit
Fire entry suit
Nomex dungaree
Fire masks
Respirators SCBA
Fire extinguishers
Fire detectors
Fire hazard cutting tools
Kevlar gloves
Fire fighting tender
Telescopic tender
High pressure pumps
Hose pipes
Fire suppression system

PROTECTIVE POLICE GEAR

Helmet
Visor
Bullet proof jacket
Bullet proof inner jacket
Goggles
Bomb suit
Guard
Jungle boot swat
-50° C suits (sub zero conditions)

SWAT/ERT POLICE TEAM

Police uniforms (Cotton - Poly)
Commando dungaree
Amplitude dungaree
Visa endurance uniforms
Anti microbial uniforms
Swat shoes
Luminous jackets
VHF HF sets

TRAFFIC POLICE

Camera with spy cam
Traffic cones
Traffic uniforms

PHYSICAL SECURITY EQUIPMENTS

Bomb blanket
Bomb trolley
X-ray scanner
Handheld metal detector
Prodder

Door frame metal detector
Handheld metal detector
Telescopic mirror
Mine sweeper
Deep search metal detector
Mirror trolley
Explosive detector
Mobile trace
Street lab mobile
Itemiser
Under vehicle scanner
Mobile lab scanner
Bomb suit
Bollards, tyre killers / Boom barriers, turnstile

POLICE EQUIPMENT

Peephole reverse viewer
Mute electric drill
Road block barrier
Remote operative road block barrier
Portable under vehicle
Search camera system

CORPORATES

X-ray baggage scanners
Entry scanner
Under vehicle scanner
RFID parking vehicle entry systems
Parking lot monitoring

CYBER SECURITY

Internet monitoring
Gsm monitoring – off air type
Wifi monitoring
Cell seeking – off air interception
Satellite interception althurraya
Iridium inmarsat
Broadband wimax
Broadband jammer
Wifi jammer
Cyber cafe tools for monitoring
Corporate internet monitoring software
GPS monitor
Miniature gsm counter surveillance
Mobile forensics
Cellphone data extraction
Encase suite
Digital forensics
Knoll on track

FORENSICS

- Mobile forensics
- Lab forensics
- Digital forensics
- Microscopes
- Laser scanner for debris
- Voice forensics
- Cyber forensics

PROJECT / INFRASTRUCTURE

- CCTV installation
- Solar panel grid installation
- Baggage handling at airports
- City management surveillance
- Traffic management systems
- Mines safety and surveillance
- Secure and intelligent infrastructure
- Highway solar power and surveillance
- Residential colonies video door phone alarm
- Mall security systems
- Luxury housing complex safety security equipment
- LCD panels for airports, hotels, malls
- Access control for hotels, parking lots, complex
- Vehicle tracking system

ELECTRONIC SURVEILLANCE

- IR camera
- CCD camera
- Laser camera
- Video door phone
- OB telecom fiber

SURVEILLANCE EQUIPMENT

- GSM GPS surveillance
- Bag camera
- Tie camera
- Pen camera
- Mini-digital camera
- Button camera
- Mini watch DVR
- Car key camera
- F999 Listen through wall device
- F555 Listen through wall device
- Listen through wall device (Two powerful transducers)
- Electronic Listening and digital recording device
- Detect ear

- Wireless day/night cam
- Hidden camera finder
- Monocular night vision
- Binocular night vision
- Small robot
- See through Wall Radar
- Wall climbing robots

SECURITY INSPECTION EQUIPMENT

- Mirror with wheels
- Under vehicle search mirror (Square)
- Under vehicle search mirror (Round)
- Foldable mirror
- Hand-held metal detector
- Personal radiation detector
- Portable X-ray security screening system
- Ultra-low dose hand held X-ray device for fluoroscopy
- Mini metal detector
- Image X-ray security inspection equipment
- Portable walk through metal detector

EOD EQUIPMENT

- Water jet disrupter (29mm)
- Hook & line tool kit
- EOD tool kit (36-piece)
- Portable jammer
- Bomb suppression blanket & safety circle
- Electronic Stethoscope
- Non-linear junction detector

CORPORATE SECURITY

- Consultancy
- Security risk assessment

DEFENCE

- Flight Suits (Nomex)

BANKS

- ATM DVR with video analytics

PANDEMIC KIT

- H1 virus kit

OIL & GAS

- Low temperature gas tight suit

CBRN

- CBRN masks, suits, body bags

TOTEM IS AN AUTHORISED SALES PARTNER OF MORPHO DETECTION (UK) LTD.

HARDENED MOBILE TRACE

World's only Simultaneous, dual mode handheld system for a broad range of explosives detection - detects explosives and narcotics in seconds.

Detects both the positive and negative explosives ions in one sample - important explosives are found in positive mode

Simultaneously test for a wide range of explosives and narcotics in seconds

Other handhelds work in one mode at a time, and require changing components and additional samples to test for both types of ions

Checks for CWA and Toxic Industrial chemicals also.

ITEMISER

The Itemiser is the first trace detector in the world to simultaneously detect positive and negative ions, enabling the detection of a broad range of explosives and narcotics. Detection of both positive and negative ions allows for effective identification from a single sample. It delivers fast, simultaneous explosives and narcotics detection in a package that is ergonomic and portable.

Quick analysis and results in approximately 7 seconds

Analysis Time : Default 7 seconds
Sample Acquisition : Surface wipe or optional vacuum collection

Detection Modes : Explosives (optimized negative ion mode)
Narcotics (optimized positive ion mode)
Dual (positive and negative ion mode)

HRX 1000 - COMPACT X-RAY INSPECTION SYSTEM

Morpho Security's HRX 1000 X-ray System is a cost effective solution ideal for screening large parcels and cargo in airports, government offices, and other business applications. The tunnel size of 100 cm (39.4 in) wide by 100 cm (39.4 in) high maximizes the effective screening region, producing exceptional images while rapidly inspecting large articles.

Sensitivity:
36 Gauge Wire Typical, 38 Guaranteed

Spatial Resolution:
1.25 mm both Horizontal and Vertical

Penetration:
31 mm Steel Typical, 29 mm Guaranteed

Contrast Sensitivity:
24 Visible Levels, 4096 Gray Levels

Tunnel Opening:
1000 mm (39.4 in) x 1000 mm (39.4 in)

X-Ray Detector
2304 channels in an "L"-shaped array.

* Other models from 500 mm to 1800 mm are also available

TOTEM IS AN AUTHORISED SALES PARTNER OF MORPHO DETECTION (UK) LTD.

**PERSONAL SCANNER
DETECT A BROAD SPECTRUM OF CONCEALED
EXPLOSIVE
CONTRABAND IN SECONDS**

Morpho Security delivers a key component of a customer's checkpoint security solution with EntryScan3e. A high-throughput, non-intrusive walk-through portal for the rapid detection of explosives, EntryScan3e offers accuracy, speed and hands-off operation. Using a patented technology, it can help identify even the most challenging substances by detecting and analyzing their microscopic traces. Enhanced sample collection assures full-body screening, including the head and shoes. Automatic traffic control features such as exit doors and audio/visual walk signals help optimize flow.

EntryScan3e provides people-friendly checkpoint screening with prompt, sensitive and reliable results.

Analysis Time: Default 10 seconds

STREET LAB MOBILE

Built to quickly and accurately identify threats in the field, Morpho's StreetLab Mobile is a go-anywhere, user-friendly handheld unit that can identify chemical substances using Raman Spectroscopy for data capture and analysis. Rugged, yet ergonomic and lightweight, StreetLab Mobile can reliably identify liquids, powders, and solids in a single step without sample consumption or subjective interpretation.

- Identifies broad range of substances (i.e., toxic industrial chemicals, toxic industrial materials, explosives, and narcotics)
- Samples through glass, plastic, transparent- and even translucent-materials
- Analyzes pills, powders, liquids and solids

GE Digital Energy UPS 3KVA to 200 KVA—Power Quality Solutions

Critical Services and processes need safe, reliable power

Delivering superior performance and industry-leading energy efficiency for backup power management. We ensure mission critical equipment and processes are protected and uninterrupted by power system anomalies

Application Example : Data Centre:

Mission critical processes need a power system that is cleaner and more reliable than what a typical utility can provide. GE's Power Quality products achieve power availability of up to 99.9999%, the equivalent of just seconds of downtime per year, by providing immediate UPS backup power and power switching solutions, while reducing disturbances on the system.

RESPIREX

AUTHORISED DISTRIBUTOR FOR RESPIREX UK

GTB REUSABLE GAS-TIGHT SUIT

The Respirex GTB is a reusable Type IA "gas tight" Hazmat chemical protection suit covering both the wearer and the breathing apparatus. It comes supplied with safety gloves and either integral heavy duty safety boots or integral socks. Suitable for use with all types of self contained breathing apparatus. (Product Code: GTB203/215/3)

NUCLEAR AND PHARMACEUTICAL INDUSTRIES FRONTAIR - 2 SUIT

Frontair-2 suit manufactured in blue tint anti-static 150 micron PVC material. Also available in a lightweight barrier laminate material with excellent resistance to permeation by a wide range of chemicals. Large visor area allowing a wide field of vision both vertically and horizontally. Waist belt and internal air system to hood. High/low valve which is adjustable by the wearer and incorporating a ventilation system to the arms and legs (excluding airline coupling). CE marked in accordance with EN1073-1:1998.

DISASTER MANAGEMENT / CBRN/ NBC PRPS (Powered Respirator Protective Suit)

Hazmax boots and detachable mechanism. Gas tight locking cuff and glove. Gas tight zip and Velcro style flap for re-use. Gas tight seam construction certified to EN464:1994 Respirex waist support with one EPD dose meter support. (Product Code: CPS0005)

PERSONAL PROTECTIVE EQUIPMENT

ESAB operated at the forefront of welding and cutting technology. Over one hundred years of continuous improvement in products and processes, enables us to meet the challenges of technological advance in every sector in which ESAB operates.

With over 100 years of experience, and a presence in over 80 countries worldwide, ESAB is probably the most recognized brand in welding and cutting with a product portfolio, which includes:

- ▶ Standard Welding and Cutting Equipment
- ▶ Automatic Equipment
- ▶ Automated Cutting Equipment
- ▶ Welding Consumables
- ▶ Personal Protective Equipment (PPE)
- ▶ Welding Accessories

ESAB offer a comprehensive range of Personal Protection Equipment, covering everything from head to foot, for both welding and cutting and general engineering applications. All ESAB products conform to all relevant EU legislation and standards.

As Health and Safety Standards improve year on year, so does ESAB's commitment to providing a product portfolio capable of meeting the ever increasing demands of the markets we serve. As you would expect from a leading supplier of welding and cutting solutions, the ESAB product range is second to none for quality and reliability.

FAAC India

FAAC India introduced hydraulics in the gate opening sector. And have perfected this technology adapting it to a multiplicity of needs. FAAC automated systems satisfy both Intensive use and Economic use. FAAC India began making its own electronic equipment which include control equipment, radio controls, as well as safety and signaling systems.

• Tyre Killers

• Boom Barriers

• Bollards

FOOT WEAR / ROAD SAFETY PRODUCTS

Features

Uniform Code, Polishable - Full-grain Leather
Breathability - 1000 Denier CORDURA
Lateral Support - Riveted Steel Shank Sandwiched Between 2 Flexible Lasting Boards
Extra Comfort - High Ankle Heel Support
Durability, Strength - Triple Stitched Upper
Traction - Self-cleaning, Multi-tred Carbon Rubber Outsole
Comfort, Athletic Cushioning, Total Foot Support - Compression-molded Eva Midsole
Allows For Custom Fit - Removable Molded Orthotic Footbed
Comfort, High Durability - Strong, Durable CAMBRELLE Inner Lining Wicks Moisture Away From Foot.

OCM

Authorised distributor for OCM for security uniforms

OCM provides the latest in fabric innovations through its strategic technology. Its vision is to become the premier supplier of technology based smart solutions for better living in a better world. It integrates technology, people, and processes to deliver these solutions, customized to meet individual client needs. It is committed to delivering high performance products that support the various lifestyles we live today. By combining innovation and quality with services, it offers the protection, comfort and durability you require.

ABLOY

Abloy Oy has over one hundred years experience in the manufacture of products associated with the locking and opening of doors, windows and devices. We develop, manufacture and market mechanical and electromechanical building locks, industrial locks, padlocks, door closers and door automatics, architectural hardware such as door handles and pulls, window handles and escutcheons. Our business idea is to develop sage, aesthetic and easy to use locking solutions which satisfy the needs of endusers and our construction industry partners for security and ease of access.

Abloy Oy products are designed and manufactured not only to provide high levels of security, but also to be reliable, user-friendly and aesthetically pleasing.

ABLOY is your sign for security.

COMPOSITE HARD ARMOUR PLATE CERAMIC PLATE - ICW LEVEL III AND IV

Size : 250 mm x 300mm x (10" x 12")
 Shape : Multi curve
 Outer Finish : Black Nylon
 Weight : 1.6 Kg – 3 Kg for 10" X 12"
 Protection Level : Level IV according to NIJ 0101.04
 when used in conjunction with NIJ Level IIIA soft armour.

PASGT HELMET

The Indian Armour PASGT Helmets (US Personal Armour System Ground Troops) Helmet is designed to protect against fragments/shrapnel and other ballistic threats; with improved comfort. Used by, Special Forces, Police, Military and SWAT teams High ballistic performance with low weight, using high-tenacity ballistic aramid fiber. Unique processing method and perfect fit suspension system.

- 3 different suspension systems.
All have a 4 point chin strap harness, with an integrated nape pad.
- Crown Mesh: Crown Mesh with cross straps; with plastic chin cup
- Leather Ring: Shock Absorption harness, with leather webbing and leather split chin strap.
- Pad: 7 EVA foam pads; with webbing split chin strap

ULTRA THIN 7" COLOR VIDEO DOORPHONE

- 17mm ultra-thin indoor unit with advanced technology.
- Popular simple design and easy operation.
- Taiwan Grade - A TFT screen promises high definition image.
- Durable, waterproof and dustproof outdoor unit.
- 7" TFT screen with low power consumption, no radiation and high definition.
- Hands free intercommunication.
- Monitoring the outdoor.
- Electric-controlled unlocking.
- Brightness, chroma and volume adjustable.
- 8-chord melody rings for option.
- Enclosed a switch power supply and 15m cable for DIY installation.

DELOPT THERMAL IMAGING

Improved on the most advanced IR package available now, integrating multiple technologies never used in the industry, DELOPT Thermo Plus are another ingenious solution provides for professional IR Demographers around the world. In a rugged, compact and durables magnalium casing, offer a wide assortment of unexpected features that enable thermographers to work unprecedented efficiency and productivity. Exceeding all the existing IR radiometric cameras, it sets another new standard of the first class products for the whole industry.

- APPLICATIONS:**
- Predictive and preventative maintenance
 - Electricity inspections
 - Building diagnostics
 - Technical diagnostics
 - Veterinarian helper
 - Portable law enforcement DELOPT Thermo Plus.

CENTRAL INVESTIGATION AND SECURITY SERVICES LIMITED (CISS)

We provide smartly uniformed, suitably trained and well-equipped guards who provide assistance for security and safety of assets, personnel and property to a wide spectrum of customers in business and industry. Our customers include industries, Indian and Multi-National corporates, Ports, Banks, Educational Institutes, Residential and Staff Townships, in several cities and towns across the country. They are sourced from CISS, a renowned company in India with experience of several decades behind them.

CRITICAL INFRASTRUCTURE

Diversified sector - many segments, with varying growth rates

AIRPORT SECURITY

Our focus: Screening systems to prevent explosives/weapons being taken onto aeroplanes

Primary Areas: Checkpoint, hold baggage, air cargo

APPLICATIONS

Military

High Threat Facilities

Ports & Borders

Law Enforcement & Prisons

Transportation

Totem International has entered into a strategic partnership for providing specialised skilled manpower for hotels, ports, airports and critical infrastructure. The personnel from CISS will be equipped with necessary gadgets and training for managing critical installations and disaster response.

Armed Guards & Dog Squad

Trained Watch Guards

Event Security Management

Electronic Security Solutions

Bank Security

Surveillance and Investigation

SMART CARD SOLUTIONS

MaxVision - BPAC

Handheld Rugged Computer with Built in Biometrics – Feature rich, fully functional, no-compromise rugged Ultra Mobile Personal Computer (UMPC) for every industry. MaxVision's BPac uses a rugged aluminum package that fits in a BDU pant pocket and can collect and process biometric and other relevant in-the-field information. The BPac includes a 5.6" touch sunlight readable LCD, FIPS 201.1 compliant fingerprint scanner, Iris camera with IR illuminator, face/barcode/video camera, GPS, IEEE 802.11 b & g, Choice of 3G cellular radio (GSM or CDMA), digital voice recorder, contact/contactless Smart card reader and easy-to-use biometric software or SDK support for porting users own application in Windows, all in a handheld package weighing approximately 3.5 lbs.

FBI CERTIFIED!

"BPac 8000 mobile single finger capture device, incorporating the Futronics FS99 at 500 ppi, when used in image transmission mode (PIV-071006 Mobile ID SAP 10) EBTS Appendix F Mobile iD SAP 10 using Personal Identity Verification (PIV) Single Finger Capture Device Specifications"

MaxVision - 6PAC Fingur Print Capture System

The Maxvision 6PAC is a completely new paradigm in fast finger 10-Print capture systems. The 6PAC uses six independent FIPS 201.1 certified optical finger print sensors arranged in a unique patent pending softball sized hand grip which simultaneously captures all fingerprints from either the right or left hand in as little as two seconds per hand. The 6PAC's unique design and capture process eliminates the need for finger segmentation and individual thumb capture traditionally used on a "Four Slap" device allowing for a faster, more natural, and less intrusive capture experience. Furthermore each finger is independently processed for FIPS compliance before given a green light on each finger.

Applications range from enrollment, verification/identification, physical/logical access and quick look-up applications. Complete enrollment application available.

Each of the FIPS 201.1 certified sensors provides an illuminated 500 dpi optical sensor with a resolution of 280 x 352 pixels. Each finger capture actually occurs at the same time and is processed by the multi threaded SDK. The 6PAC captures a full 10-print record in well under 10 seconds while using a two capture process instead of the traditional three capture 4 Slap process (4 left, 4 right, 2 thumbs).

The connection to the host PC is provided via a 2 meter USB cable. A dual USB connector provides the necessary power to the 6PAC. No other external power source is required.

ELECTRONICS CORPORATION OF INDIA LIMITED

THICKNESS GAUGING SYSTEM: TGS4 I 55

Features

- ▶ On line and non-contact measurement
- ▶ PC Based Control Unit
- ▶ Advanced recognition of error in the products resulting in saving material
- ▶ Compliance with narrow tolerance limits
- ▶ Automation of entire production line by using signals output
- ▶ High measuring accuracy and long term stability
- ▶ Increase in productivity because of less downtime
- ▶ Short term amortisation of capital invested.

Thickness Gauging systems are used where the thickness basis weight of a flat Product is to be measured and controlled.

NUCLEONIC MOISTURE GAUGE

Features

- ▶ Moisture averaged over a time, depending on the speed of the belt, resulting in high accuracy
- ▶ Non-contact measurement, surface mounted probes and remote control electronics
- ▶ Wide range of applications in moisture measurement in granular solids, powders such as coke, sinter mix, sand etc in hoppers.
- ▶ Measures moisture continuously
- ▶ Principle of thermalisation of fast neutrons using Am²⁴¹ -Be fast neutron source
- ▶ Density compensation
- ▶ High efficiency He³ proportional counter detection
- ▶ PC based design with state-of-the-art technology

ON-LINE COAL ASH MONITOR - CAM4 I 35

Features

- ▶ Non-contact measurement
- ▶ Accuracy is independent of belt conveyor
- ▶ Easy installation on existing belt
- ▶ Accurate and fast computation using a PC
- ▶ Electrically operated, C-frame
- ▶ Rugged construction, suitable for industrial environment
- ▶ Easy off-line calibration

NUCLEONIC LEVEL GAUGE - NLG 4 I 49

Features

- ▶ Non-contact & non destructive measurement
- ▶ Easy to install in any industrial environment
- ▶ Compact and simple
- ▶ Micro-controller based
- ▶ Flexible and easy to calibrate
- ▶ Can count the number of times filling or emptying
- ▶ Rugged construction to withstand rough environment
- ▶ Can be used as an on-off control system for the control of liquid /solid levels in the storage vessels
